CONSUMER INFORMATION NOTICE

Dear Customer:

The New Jersey Department of Environmental Protection (DEP) Pesticide Control Regulations require us to provide you with the information contained in this notice regarding pesticide use on your property. No application shall be made until the customer or resident has had an opportunity to review this information. The table below lists the mandatory pesticide label instructions and precautions that could affect you for the pesticide(s) we will use on the proposed date of application. No application should begin unless all pre-application instructions and precautions have been followed. If any of the information in the table below should change, we will issue to you a new Consumer Information Notice reflecting that change.

Upon your request, we will inform you of the exact dates of pesticide application before the application takes place.

You are entitled by the New Jersey Pesticide Control Regulations to request and receive from us the specific label for each pesticide that will be used on your property. Furthermore, if this is a contract for termite control (using pesticides other than termite baiting systems) we are required to give you a summarization of the regulations regarding proper application of termiticides (N.J.A.C. 7:30-10.4)

We are also required to provide the following phone numbers for your use in the event you have questions concerning the materials that we will be using:

- National Pesticide Information Center (general health and toxicology info.) 1(800) 858-7378
- New Jersey Poison Information & Education System (Emergencies) 1(800) 222-1222
- New Jersey DEP Pesticide Control Program (609) 984-6507

(This number is for pesticide regulation information, complaints & Health referrals)

Sanitation, as well as physical and biological control measures, should be considered as part of a good pest control program. Pesticides may be used as another good pest control program. Pesticides are substances used to control living organisms and vary in degree of toxicity.
